# 市場趨勢 Market Trends

人工智慧蓬勃發展，非人工智慧產品也在成長：雙速先進封裝市場正在形成

AI surges, non-AI grows: a two-speed advanced packaging market takes shape

<https://www.yolegroup.com/product/report/status-of-the-advanced-packaging-industry-2026/>

Advanced IC substrate market projected to grow at a ~9% CAGR, primarily fueled by surging demand for AI accelerators.

<https://www.yolegroup.com/product/report/status-of-the-advanced-ic-substrate-industry-2026/>

AI伺服器需要同時執行大量運算、資料交換及高速傳輸，因此內部會使用多種類型的PCB，分別支援不同功能。主要包括運算板（Compute Board）、中介背板（Midplane）、交換板（Switch Board）及光通訊模組板（Optical Module），共同構成AI伺服器與資料中心的高速運算架構。
